International Students Affairs Management Office of CAUC

2022 International Students Admission of CAUC

I. Introduction to CAUC

Civil Aviation University of China (CAUC), under the direct administration of Civil Aviation Administration of China (CAAC), is a higher education institution aiming to train students into senior engineering technicians and management personnel. It was co-established by Civil Aviation Administration of China, Tianjin Municipal Government, and Ministry of Education in 1951.

Back in September 1951, CAUC was founded as No.2 Civil Aviation School that was administered directly by the Civil Aviation Administration of Central Military Commission of China, with the first president Fang Huai appointed by Chairman Mao Zedong and the location chosen by former Premier Zhou Enlai. No.2 Civil Aviation School was renamed as Civil Aviation College of China in 1981, and adopted the current name—Civil Aviation University of China—on May 30th, 2006. With a total area of 1.694 million m^2 and a building area of 874 thousand m^2, CAUC now has one campus in Dongli District of Tianjin, one campus in Ninghe District of Tianjin under construction and three flight training colleges—Chaoyang Flight Training College, Inner Mongolia Training College and Xinjiang Tianxiang Aviation College. After 70 years of pursuing excellence, CAUC has evolved into the main base and major force of training civil aviation technicians and promoting scientific and technological innovation, and therefore is renowned as the cradle of China's civil aviation professionals, the center of scientific and technological research, and the window of international cooperation and exchange. Moving forward, CAUC will work to build itself into a world-class civil aviation university with Chinese characteristics.

II. Program Introduction

1. Bachelor Degree Programs (Duration: 4 years)

(1) English-Taught Bachelor Degree Programs

College	Program

College of Electronic Information	**Communication Engineering**
College of Economics and Management	**Business Administration**

(2) Chinese-Taught Bachelor Degree Programs

(Applicants of Chinese-taught bachelor degree programs must already complete a one-year preparatory education in China.)

College	Program
College of Air Traffic Management	**Traffic and Transportation (Air Traffic Control)**
	Traffic Management (Flight Operations Management)
College of Aeronautical Engineering	**Flight Vehicle Propulsion Engineering**
	Flight Vehicle Manufacturing Engineering
	Materials Science and Engineering
College of Electronic Information and Automation	**Electronic Information Engineering（Avionics）**
	Electrical Engineering and Automation (Aviation Electric)
	Communication Engineering

	Automation
College of Economics and Management	**Business Administration**

2. Master Degree Programs

(Taught in Chinese, Duration: 3 years)

	College	Program	Research Direction
Academic Master Degree Programs	College of Safety Science and Engineering	**Safety Science and Engineering**	Civil Aviation Safety and Emergency Management
			Civil Aviation Thermal Disaster Prevention and Control and Emergency Response Technology
			Civil Aviation Safety and Human Factors
			Civil Aviation Network and Information Security
		Aircraft Airworthiness Certification and Engineering	Aircraft Airworthiness Certification
			Aero-Engine Airworthiness Certification
			Airborne System and Equipment Airworthiness Certification
	College of Traffic	**Traffic and Transportation Engineering**	Traffic and Transportation Planning and Management

	Science and Engineering		Aircraft Intelligent Maintenance Engineering
			Traffic Infrastructure Engineering
	College of Air Traffic Management	**Traffic and Transportation Engineering**	Traffic Information Engineering and Control
			Air Traffic Planning and Management
	College of Aeronautical Engineering	**Mechanical Engineering**	Airport Support Equipment and System
			Mechanical System Optimization Design and Emulation
			Civil Aviation Electromechanical System Test and Control
			Aviation Parts Maintenance Theory and Technology
		Aeronautical and Astronautical Science and Technology	Flight Vehicle Design
			Aircraft Propulsion Theory and Engineering
			Aviation Manufacturing Engineering
			Aircraft Operation and Maintenance
	College of Electronic Information	**Information and Communication Engineering**	No research direction is specified.

	and Automation	**Control Science and Engineering**	No research direction is specified.
	College of Computer Science and Technology	**Computer Science and Technology**	No research direction is specified.
		Air Transportation Big Data Engineering	No research direction is specified.
	College of Economics and Management	**Business Administration**	Enterprise Management
			Accounting
			Strategic Management
			Logistics and Supply Chain Management
Professional Master Degree Programs	College of Safety Science and Engineering	**Network and Information Safety**	Space-Air-Ground Integrated Air Traffic Control Network Security
			Civil Aviation Information System Security Engineering
			Airborne Cyber Security
		Air Traffic and Transportation	Aero-Engine Airworthiness Technology
			Aircraft Airworthiness Technology
			Airborne System and Equipment Airworthiness Technology

			Civil Aviation System Security Management
			Civil Aviation Thermal Disaster Prevention and Control and Emergency Response Technology
			Civil Aviation Operation Safety and Human Factors Engineering
	College of Traffic Science and Engineering	**Air Traffic and Transportation**	Traffic and Transportation Planning and Management
			Aircraft Intelligent Maintenance Engineering
			Airport Engineering and Operation Support
			General Aviation Operation Management and Technology
	College of Air Traffic Management	**Air Traffic and Transportation**	No research direction is specified.
	College of Aeronautical Engineering	**Mechanical Engineering**	Airport Support Equipment and System
			Mechanical System Optimization Design and Emulation

			Civil Aviation Electromechanical System Test and Control
			Aviation Parts Maintenance Theory and Technology
		Aeronautical Engineering	Flight Vehicle Design
			Aircraft Propulsion Theory and Engineering
			Aviation Manufacturing Engineering
			Aircraft Operation and Maintenance
	College of Electronic Information and Automation	**Electronic Information**	Control Engineering
			Electronics and Communications
			Big Data and Artificial Intelligence
	College of Computer Science and Technology	**Computer Technology**	No research direction is specified.

III. Fees

1. Application Fee

400 RMB/Person (non-refundable)

It should be paid in **RMB yuan** upon application.

Transaction Information

Opening Bank: Tianjin Binhai International Airport Sub-branch, Industrial and Commercial Bank of China

Account Name: Civil Aviation University of China

Account Number: 0302015109100467065

SWIFT Code: ICBKCNBJTJN

2. Tuition

Bachelor: 15,000 RMB/Year

Master: 22,000 RMB/Year

It should be paid upon registration.

3. Accommodation Fee

Double Room: 6,000 RMB/Person/Year

It should be paid upon registration.

IV. Scholarship

1. Freshmen Scholarship

CAUC is authorized to provide Tianjin Municipal Government Scholarship, and the university also offers CAUC Freshmen Scholarship to eligible freshmen.

	Tianjin Municipal Government Scholarship	CAUC Freshmen Scholarship
Type	**First-Class Scholarship (Full Scholarship)** Coverage: Tuition, Accommodation and Living Stipend	**First-Class Scholarship (Full Scholarship)** Coverage: Tuition, Accommodation and Living Stipend

	Second-Class Scholarship (Partial Scholarship) Coverage: Tuition and Accommodation **Duration:** Ten Months of the First Academic Year	**Second-Class Scholarship (Partial Scholarship)** Coverage: Tuition and Accommodation **Duration:** Ten Months of the First Academic Year
Applicant Eligibility	(1) Applicants of bachelor degree programs should hold high school graduation certificate and be under the age of 30. (2) Applicants of master degree programs should hold a bachelor degree and be under the age of 35. (3) Language proficiency: Applicants of Chinese-taught programs should provide HSK certificate or other certificates that can prove their Chinese proficiency; Applicants of English-taught programs should provide English language certificate or English study certificate. (4) Applicants should fill in Tianjin Municipal Government Scholarship Application Form, and handwrite their name down on the form. (5) Master degree program applicants should provide two reference letters written by professors or associate professors.	(1) Chinese-taught programs: Applicants of first-class scholarship should get a mark of 270 or higher in HSK 4; Applicants of second-class scholarship should get a mark of 180 or higher in HSK 4. (2) English-taught programs: Applicants of first-class scholarship should get a mark of 7.0 or higher in IELTS, or should have an equivalent English proficiency level; Applicants of second-class scholarship should get a mark of 6.0 or higher in IELTS, or should have an equivalent English proficiency level; (3) Applicants should not be awarded with other scholarships in the first year.

2. Outstanding Enrolled Students Scholarship

CAUC provides CAUC Outstanding Enrolled Students Scholarship for all eligible enrolled international students every year since the second year.

	First-Class Scholarship	Second-Class Scholarship	Third-Class Scholarship
Applicant Eligibility	(1) No suspension or extension of study in the previous academic year; (2) Meet the minimum credits requirements in the two semesters of the previous academic year; (3) Obey Chinese laws and university rules and regulations; (4) Not be awarded with other scholarships in the current academic year.		
Coverage	Tuition, Accommodation and Living Stipend	Tuition and Accommodation	Tuition
Scholarship Duration	Ten months of an academic year. The scholarship award is evaluated on a yearly basis to determine if the applicants will receive the financial aid.		

V. Application for Admission

1. Applicant Eligibility

(1) Applicants of bachelor degree programs should hold a high school graduation certificate and transcript; Applicants of master degree programs should hold a bachelor degree certificate and transcript.

(2) Applicants of Chinese-taught programs should get a mark of 180 or higher in HSK 4, or have an equivalent Chinese proficiency level; Applicants of English-taught programs should be good at English listening, speaking, reading and writing.

(3) Applicants of Chinese-taught bachelor degree programs should already complete a one-year preparatory education in China before registration at CAUC.

(4) Be in good health and have no criminal record.

2. Application Documents

Programs / Documents	Chinese-Taught Bachelor Degree	English-Taught Bachelor Degree	Chinese-Taught Master Degree
First Page of Valid Passport	√	√	√
Valid Residence Permit	Applicants who are living in China should submit a scanned copy of valid residence permit.		
Notarized High School Graduation Certificate and Transcript & Their English/Chinese Translation **(If the document is not written in English or Chinese, it must be accompanied by a certified English or Chinese translation)**	√	√	×
Notarized Bachelor Degree Certificate and Transcript & Their English/Chinese Translation **(If the document is not written in English or Chinese, it must be accompanied by a certified English or Chinese translation)**	×	×	√ Applicants who are not graduated yet should submit a pre-graduation certificate or an enrollment certificate.

Foreigner Physical Examination Form	√ The physical examination should be conducted after February 1st, 2022.		
Personal Information Form	√	√	√
Tianjin Municipal Government Scholarship Application Form	√	√	√
HSK Certificate	√	Not a Must	√
English Proficiency Proof (except for English native speakers)	×	√	×
Study Plan (in English or Chinese)	√	√	√
Police Clearance Record (in English or Chinese)	√	√	√
Two Reference Letters from Professors or Associate Professors	×	×	It is a must for the applicants of Tianjin Municipal Government Scholarship.
Self-Introduction Video	In Chinese	In English	In Chinese

*Please upload the scanned copy of all documents.

*All applicants are responsible for the authenticity of the submitted documents. If any document is found to be fake or obtained through illegal behaviors, the admission or student status will be cancelled immediately.

3. Application and Admission Procedure

(1) Log on cauc.at0086.cn/student and create an account.

(2) Fill out your personal information, upload the scanned copy of supporting documents, pay the application fee, upload the payment proof, submit the application, and wait for the review.

Period for Application: February 1st, 2022-May 31st, 2022

(3) The accepted applicants will receive a scanned copy of Admission Letter via the application website or email before August 2022.

(4) Download the WeChat app and create an account.

(5) Join the WeChat group chat by following the instruction on the Admission Notice and wait for further notice about online/offline registration.

(6) Undergo the qualification review before registration. Those who fail the qualification review will be ineligible for registration.

(7) The semester will begin in September 2022. Please wait for further notice about the exact date.
