STUDENTS ADMISSION GUIDE

International Students Admission Guide

Civil Aviation University of China

I. Introduction to CAUC

Civil Aviation University of China (CAUC), under the direct administration of Civil Aviation Administration of China (CAAC), is jointly supported by CAAC, Tianjin Municipal Government, and China's Ministry of Education. It is a teaching and research-oriented university that focuses on the coordinated development of multiple disciplines—engineering, management, science, economics, the humanities, law, and art. It is included into Tianjin Municipal Government's "Double First-Class" University Project and High-level Characteristic University Project. With moral education as its fundamental mission, CAUC implements the education principles featuring character building, ability training and knowledge transmission, and works to educate students into highly-competent scientific and technological innovation talents with professional skills and a global perspective.

CAUC was founded in 1951 as No.2 Civil Aviation School of Civil Aviation Administration that was administered directly by People's Revolutionary Military Committee of China. The No.2 Civil Aviation School was renamed as Civil Aviation College of China in 1981. Under the approval of China's Ministry of Education, it adopted the current name—Civil Aviation University of China—in 2006.

CAUC now has two campuses in Tianjin City, one in Dongli District and another in Ninghe District, and three flight training bases in Chaoyang City of Liaoning Province, Hulun Buir City of Inner Mongolia Autonomous Region and Shihezi City of Xinjiang Uygur Autonomous Region. It covers a total area of 1.979 km² and a building area of 0.874 km². There are over 29,000 full-time students registered at CAUC, including over 3,300 graduate students and over 200 international students. It boasts 16 colleges (academy), and 1 graduate school, and 1 Science and Technology Innovation Research Institute.

The university follows a discipline-led, innovation-driven and open-to-the-world development strategy with industrial characteristics, and is committed to taking the lead in higher education of civil aviation, becoming the demonstration zone of scientific and technological innovation, building a think tank offering policy consulting, and setting the pace for international exchange. The overall goal is to build CAUC into a high-level modernized teaching and research-oriented university and also a world-class civil aviation university with Chinese characteristics.

II. Program Introduction

1. Bachelor Degree Programs (Duration: 4 years)

English-Taught Bachelor Degree Programs

College	Program
College of Electronic Information	Communication Engineering
College of Economics and Management	Business Administration

2. Master Degree Programs

(1) English-Taught Master Degree Programs (Duration: 2 years)

	College	Program
Professional Master Degree Program	College of Transportation Science and Engineering	Air Traffic and Transportation

(2) Chinese-Taught Master Degree Programs (Duration: 3 years)

Academic Master Degree Programs	College	Program	Research Direction
	College of Safety Science and Engineering	Safety Science and Engineering	Civil Aviation Safety and Emergency Management
			Civil Aviation Thermal Disaster Prevention and Control and Emergency Response Technology
			Civil Aviation Safety and Human Factors
		Aircraft Airworthiness Certification and Engineering	Aircraft Airworthiness Certification
			Aero-Engine Airworthiness Certification
			Airborne System and Equipment Airworthiness Certification
	College of Transportation Science and Engineering	Traffic and Transportation Engineering	Traffic and Transportation Planning and Management
			Aircraft Intelligent Maintenance Engineering
			Traffic Infrastructure Engineering
College of Air Traffic Management	Traffic and Transportation Engineering	Traffic Information Engineering and Control	
		Air Traffic Planning and Management	
College of Aeronautical Engineering	Mechanical Engineering	Airport Support Equipment and System	
		Mechanical System Optimization Design and Emulation	
		Civil Aviation Electromechanical System Test and Control	
		Aviation Parts Maintenance Theory and Technology	
	Aeronautical and Astronautical Science and Technology	Flight Vehicle Design	
		Aircraft Propulsion Theory and Engineering	
		Aviation Manufacturing Engineering	
College of Electronic Information and Automation	Information and Communication Engineering	No research direction is specified	
	Control Science and Engineering	No research direction is specified	
College of Computer Science and Technology	Computer Science and Technology	No research direction is specified	
	Air Transport Big Data Engineering	No research direction is specified	
College of Economics and Management	Business Administration	Enterprise Management	
		Accounting	
		Strategic Management	
		Logistics and Supply Chain Management	

Professional Master Degree Programs	College	Program	Research Direction
	College of Safety Science and Engineering	Network and Information Security	Space-Air-Ground Integrated Air Traffic Control Network Security
			Civil Aviation Information System Security Engineering
			Airborne Cyber Security
		Aircraft Airworthiness Certification and Engineering	Aero-Engine Airworthiness Technology
			Aircraft Airworthiness Technology
			Airborne System and Equipment Airworthiness Technology
			Civil Aviation System Security Management
			Civil Aviation Thermal Disaster Prevention and Control and Emergency Response Technology
	Civil Aviation Operation Safety and Human Factors Engineering		
College of Transportation Science and Engineering	Air Traffic and Transportation	Air Transport Planning and Management	
		Aircraft Intelligent Maintenance Engineering	
		Airport Engineering and Operation Support	
		General Aviation Operation Management and Technology	
College of Air Traffic Management	Air Traffic and Transportation	No research direction is specified	
College of Aeronautical Engineering	Mechanical Engineering	Airport Support Equipment and System	
		Mechanical System Optimization Design and Emulation	
		Civil Aviation Electromechanical System Test and Control	
		Aviation Parts Maintenance Theory and Technology	
	Aeronautical Engineering	Flight Vehicle Design	
		Aircraft Propulsion Theory and Engineering	
		Aviation Manufacturing Engineering	
		Aircraft Operation and Maintenance	
College of Electronic Information and Automation	Electronic Information	Control Engineering	
		Communication Engineering	
		Big Data and Artificial Intelligence	
College of Computer Science and Technology	Computer Technology	No research direction is specified	

III. Fees

1. Application Fee

400 RMB/Person (non-refundable)
It should be paid in **RMB yuan** upon application.

Transaction Information

Opening Bank: Tianjin Binhai International Airport Sub-branch, Industrial and Commercial Bank of China
Account Name: Civil Aviation University of China
Account Number: 0302015109100467065
SWIFT Code: ICBKCNBJTJN

2. Tuition Fee

Bachelor: 15,000 RMB/Person/Year

Master: 22,000 RMB/Person/Year

If one need to pay for the tuition fee, it should be paid before entering China.

3. Accommodation Fee

Double Room: 6,000 RMB/Person/Year

If one need to pay for the accommodation fee, it should be paid before entering China.

IV. Scholarship

1. Freshmen Scholarship

CAUC is authorized to provide Tianjin Municipal Government Scholarship, and the university also offers CAUC Freshmen Scholarship to eligible freshmen. School will admit the excellent students after examining.

	Tianjin Municipal Government Scholarship	CAUC Freshmen Scholarship
Type	<p>First-Class Scholarship (Full Scholarship) Coverage: Tuition, Accommodation and 10 Months of Living Stipend</p> <p>Second-Class Scholarship (Partial Scholarship) Coverage: Tuition and Accommodation Duration: the First Academic Year</p>	<p>First-Class Scholarship (Full Scholarship) Coverage: Tuition, Accommodation and 10 Months of Living Stipend</p> <p>Second-Class Scholarship (Partial Scholarship) Coverage: Tuition and Accommodation Duration: the First Academic Year</p>
Applicant Eligibility	<p>(1) Applicants of bachelor degree programs should hold high school graduation certificate and be under the age of 30.</p> <p>(2) Applicants of master degree programs should hold a bachelor degree and be under the age of 35.</p> <p>(3) Language proficiency: Applicants of Chinese-taught programs should provide HSK certificate or other certificates that can prove their Chinese proficiency; Applicants of English-taught programs should provide English language certificate or English study certificate.</p> <p>(4) Applicants should fill in Tianjin Municipal Government Scholarship Application Form, and handwrite their name down on the form.</p> <p>(5) Applicants of master degree program should submit two recommendation letters written by professors or associate professors.</p> <p>(6) Applicants of master degrees should join the audition and examination held by CAUC.</p>	<p>(1) Chinese-taught programs(Master Degree): Applicants of first-class scholarship should get a mark of 270 or higher in HSK 4; Applicants of second-class scholarship should get a mark of 230 or higher in HSK 4.</p> <p>(2) English-taught programs(Bachelor and Master Degree): Applicants of first-class scholarship should get a mark of 7.0 or higher in IELTS, or should have an equivalent English proficiency level; Applicants of second-class scholarship should get a mark of 6.0 or higher in IELTS, or should have an equivalent English proficiency level;</p> <p>(3) Applicants should not be awarded with other scholarships in the first year.</p> <p>(4) Applicants of master degrees, should submit two recommendation letters written by the professors or associate professors.</p> <p>(5) Applicants of master degrees should join the audition and examination held by CAUC.</p>

2. Outstanding Enrolled Students Scholarship

CAUC provides CAUC Outstanding Enrolled Students Scholarship for eligible enrolled international students every year since their second academic year.

	First Class Scholarship	Second Class Scholarship	Third Class Scholarship
Applicant Eligibility	<p>(1) No suspension or extension of study in the previous academic year;</p> <p>(2) Meet the minimum credits requirements in the two semesters of the previous academic year, and no courses fail.</p> <p>(3) Obey Chinese laws and university rules and regulations;</p> <p>(4) Not be awarded with other scholarships in the current academic year.</p>		
Coverage	Tuition, Accommodation and 10 Months of Living Stipend	Tuition and Accommodation	Tuition
Scholarship Duration	<p>One academic year.</p> <p>The scholarship award is evaluated on a yearly basis to determine if the applicants will receive the financial aid in the coming academic year.</p>		

V. Application for Admission

1. Applicant Eligibility

- (1) Applicants of bachelor degree programs should hold a high school graduation certificate and transcript; Applicants of master degree programs should hold a bachelor degree certificate, transcript and 2 recommendation letters.
- (2) Applicants of Chinese-taught master-degree programs should get a mark of 180 or higher in HSK 4, or have an equivalent Chinese proficiency level;
- (3) Applicants of English-taught bachelor and master degree programs should be good at English listening, speaking, reading and writing.
- (4) Be in good health and have no illegal or criminal record.
- (5) Applicants of master degree should prepare two recommendation letters written by the professors or associate professors, and should join the audition and examination held by CAUC.

2. Application Documents

Programs\Documents	English-Taught Bachelor Degree Master Degree	Chinese-Taught Master Degree
First Page of Valid Passport	✓	✓
Valid Residence Permit	Applicants who are living in China should submit a scanned copy of valid residence permit.	
Notarized High School Graduation Certificate and Transcript & Their English/Chinese Translation (If the document is not written in English or Chinese, it must be accompanied by a certified English or Chinese translation)	✓	✗
Notarized Bachelor Degree Certificate and Transcript & Their English/Chinese Translation (If the document is not written in English or Chinese, it must be accompanied by a certified English or Chinese translation)	✗	✓ Applicants who are not graduated yet should submit a pre-graduation certificate or an enrollment certificate.
Foreigner Physical Examination Form	✓ The physical examination should be conducted after January 1st, 2024.	
Personal Information Form	✓	✓
Tianjin Municipal Government Scholarship Application Form	✓	✓
HSK Certificate	Not a Must	✓ (HSK 180 or above)
English Proficiency Proof (except for English native speakers)	✓	✗
Study Plan	✓ In English	✗ In Chinese
Police Clearance Record(in English or Chinese)	✓	✓
Two Recommendation Letters from Professors or Associate Professors	Bachelor ✗ Master ✓	✓
Self-Introduction Video	✓ In English	✗ In Chinese

*Please upload the scanned copy of all documents.

*All applicants are responsible for the authenticity of the submitted documents. If any document is found to be fake or obtained illegally, the admission or student status will be cancelled immediately.

3. Application and Admission Procedure

- (1) Log on cauc.at0086.cn/student and create an account.
- (2) Fill out your personal information, upload the scanned copy of supporting documents, pay the application fee, upload the payment proof, submit the application, and wait for the review.
Period for Application: January 10th, 2024-May 31st, 2024
- (3) The accepted applicants will receive a scanned copy of Admission Letter via the application website or email in July 2024.
- (4) Download the WeChat app and create an account.
- (5) Join the WeChat group chat by following the instruction on the Admission Notice and wait for further notice about online/offline registration.
- (6) Undergo the qualification review before registration. Those who fail the qualification review will be ineligible for registration.
- (7) The semester will begin in September 2024. Please wait for further notice about the exact date.
